INDEX TO VOLUMES 1 TO 10\*

BY JOSEPH STANLEY-BROWN

(Prepared by direction of the Council)

[Volume indicated by full-face figure]

**A**

	Page
ABBE, C., JR., cited on formation of Carolina forelands .....	7, 404, 409
ABBOTT, C. C., cited on glacial man .....	4, 204
— — — paleolithic man .....	2, 640
ABBOTT, RICHARD, Discovery of paleoliths by .....	2, 640
ABICH, H., cited on liparite .....	5, 601
ACANTHODICTYA, New species of .....	4, 409
ACER <i>pleistocenium</i> , Founding of species .....	1, 327
ADAMS, C. B., cited on Champlain group .....	2, 293
ADAMS, F. D., cited on age of Champlain dikes .....	9, 254
— — — anorthosites .....	4, 354; 5, 215, 216
— — — Canada limestones .....	6, 255
— — — Canadian geology .....	7, 96
— — — — Laurentian .....	8, 398; 9, 296, 307
— — — composition of Ontario slates .....	9, 225
— — — epidote .....	4, 310
— — — gabbros .....	5, 217, 224
— — — influence of water on recrystallization .....	9, 310
— — — olivine .....	5, 221
— — — relation between Hastings and Grenville series .....	9, 236
— — — Saint Jerome anorthosites .....	10, 189
— — — the term "Upper Laurentian" .....	5, 102
— elected a Councillor .....	5, 552
—; Nodular granite from Pine lake, Ontario .....	9, 163
—, Photographs presented by .....	8, 380, 386
— quoted on Laurentian of Quebec .....	1, 188
—, Titles of papers by .....	6, 468; 9, 414, 426
— and A. E. Barlow; Origin and relations of the Grenville-Hastings series of the Canadian Laurentian .....	8, 398

\* While this index is chiefly a compilation from the indexes of the individual volumes, much work in the way of combining and adjusting titles, as well as in adding new ones, has been done by Mr and Mrs George M. Wood, to whom is due much of the credit for whatever success has been achieved. It should be noted that although the Editor prepared the indexes of seven of the volumes, Mr W J McGee made those of the first three, thus setting the standard which has since been followed.—EDITOR.

 Given

	Page
ADAMS LAKE series defined.....	2, 168
ADEHEMAR, J., cited on glacial accumulations.....	6, 145
ADIE, A. J., cited on expansion of gneiss.....	7, 288
ADIRONDACKS, Crystalline limestones, opicalcites, and associated schists of the.....	6, 241
— — rocks of the.....	2, 218
—, Geological sketch of.....	5, 214
— in the Cambrian and Ordovician periods.....	8, 408
—, Limestones of the.....	6, 263
—, Metamorphism of rocks in the.....	7, 488
—, Pleistocene shores on the.....	3, 488
—, Sequence of eruptions in the.....	10, 190
—, Syenite areas in the.....	10, 186
—, Syenite-porphry dikes in the.....	9, 239
—, Titaniferous iron ores of the.....	7, 15
ADMIRALTY glacial epoch of Washington.....	9, 152
— ice-sheet of Washington.....	9, 145
— inlet.....	9, 113
— till and clays of Washington.....	9, 152
AFRICA, Evidences as to changes of level in.....	6, 162
—, Preglacial epirogenic movements in.....	10, 8
AGASSIZ, A., Acknowledgments to.....	7, 81, 135
— cited on clypeastroids and spatangoids.....	7, 144
— — — <i>Ecocyclia</i> .....	7, 237
— — — echinoids.....	3, 104, 105
— — — greensand.....	8, 203
— — — growth of corona in echinoids.....	7, 233
— — — Paleozoic echini.....	7, 238
— — — <i>Phocinosoma</i> and <i>Asthenosoma</i> .....	7, 228
—, Reference to charts of.....	6, 104
—, Term "Blake plateau" first used by.....	6, 109
—, Title of paper by.....	5, 596
AGASSIZ, LAKE, Phenomena of ( <i>see also</i> Lake Agassiz).....	2, 252
AGASSIZ, LOUIS, cited on atolls and barriers.....	7, 465
— — — Bethlehem glacier.....	4, 4
— — — Brazilian boulders.....	7, 278
— — — deep-sea invertebrates.....	6, 133
— — — exfoliation of rocks.....	7, 273
— — — forms of life in Central American waters.....	6, 134
— — — glacial theory.....	7, 27
— — — — phenomena in the White mountains.....	4, 3; 7, 4
— — — glaciation in Brazil.....	7, 277, 280
— — — landslides.....	7, 267
— — — <i>roches moutonnées</i> .....	7, 270
— — — rock decomposition.....	7, 256, 259, 264, 267, 273, 294
—, Educational methods of.....	7, 317, 318
—, Glacial studies of.....	4, 191
—, Reference to glacial theory of.....	7, 471
—, Relation of, to evolution theory.....	7, 468, 470, 471

	Page
AGE, Definition of topographic.....	2, 547
— of the auriferous slates of the Sierra Nevada; J. P. Smith.....	5, 243
— — — earth, Estimates of.....	4, 204
— — — lower coals of Henry county, Missouri; David White.....	8, 287
— — — white limestone of Sussex county, New Jersey; J. E. Wolff and A. H. Brooks.....	8, 397
AGUILERA, J. G., Election of.....	8, 1, 360
—, Reference to geology of Mexico by.....	9, 20, 28
AKERLY, SAMUEL, cited on Coastal Plain deposits.....	8, 318
ALABAMA, Analyses of slates and shales from.....	9, 308
— — — soils and clays from.....	9, 309
—, Ancient topography of ..	2, 561
—, Appomattox formation in.....	2, 2
—, Asphalt in.....	3, 188
—, Conglomerates of.....	5, 189
—, Cretaceous and Tertiary strata of.....	2, 587
—, Devonian rocks of.....	5, 470
—, Figure of Subcarboniferous fossil from.....	7, 254
—, Geologic section in ..	6, 106
—, Geology of a portion of Coosa valley in.....	5, 465
—, Middleton formation of.....	3, 511
—, Silurian rocks of.....	5, 469
—, Zapata formation the equivalent of Columbia of.....	6, 129
— RIVER, Section on.....	2, 606
ALASKA, Geological sketch of cape Vancouver.....	5, 134
—, Geology of.....	3, 495, 496
— — — Middleton island in.....	4, 427
—, Glaciation of.....	2, 266; 7, 29, 30
—, Glaciers of.....	3, 139; 7, 19
—, Malaspina glacier in.....	5, 81
—, Shore forms on coast of.....	7, 415
—, Surface geology of.....	1, 99
ALASKAN COAST as an evidence of subsidence .....	6, 160
ALBERTA, Glacial deposits of.....	7, 31
— — river courses in.....	2, 245
ALBIRUPEAN, Proposed abandonment of term.....	2, 436
ALDRICH, T. H., cited on Alum bluff fossils.....	5, 148
ALECTRYONIA, New species of.....	3, 404
ALEUTIAN ISLANDS, Geological sketch of the.....	5, 119
ALGONKIAN age of Pikes Peak granite.....	6, 471
—, Definition of the term.....	1, 238
— period, Definition of.....	10, 201
— —, Lake Superior region in the.....	10, 221
— rocks, Disintegration of.....	2, 221
— —, Fossils from.....	10, 227
— —, Grand Canyon series of.....	10, 215
— — of Minnesota.....	3, 335
— — — Texas.....	6, 376

	Page
ALGONKIAN rocks, Relations of Silurian to.....	3, 155
—, Unconformity between Cambrian and.....	10, 210
—, Validity of term disputed.....	2, 176
ALGONQUIN, Lake ( <i>see also</i> Lake Algonquin).....	3, 484; 6, 25
ALLEN, COLONEL, cited on natural gas.....	3, 207
ALLEN, J., Exploration by, cited .....	3, 333
ALLEN, JAMES, Discovery of fire opal by .....	2, 639
ALLPORT, SAMUEL, cited on thermometamorphism.....	3, 16
ALSOITE, Weathering of.....	9, 257
ALPS, Glacial phenomena in.....	4, 5, 7
AMBOY, Cretaceous plants referred to the.....	7, 13
— clay series, Relations of.....	7, 12, 14
— — —, Relation of Greenland formations to.....	9, 366
AMEGHINO, FLORENTINO, Note on latest paper on Patagonian paleontology by..	6, 28
AMENDMENTS to the Constitution.....	5, 553; 6, 15, 431; 9, 400
— — — By-laws.....	5, 553; 6, 15, 432
